

BAY DESIGN GROUP

Corporate Overview

Bay Design Group (BDG) is a full-service engineering, surveying, and land planning firm dedicated to providing exceptional service and innovative solutions. The backbone of the company's resources stems from the principals' many years of experience in the industry. The partners and on staff professionals serve a variety of commercial, industrial, residential and municipal clients throughout the Mid-Atlantic region. Our surveyors and engineers are licensed to practice in the Commonwealth of Virginia and the states of Maryland and North Carolina.

In 1996, Caskie Engineering merged with Dawson, Phillips, Jones and Associates to form Bay Design Group. They established the corporate headquarters in Gloucester, Virginia. Combining the expertise and resources of two firms allowed Bay Design Group to offer a broader range of services and to ensure that a company director is directly involved in every project. Branch offices were opened in Richmond, Virginia in 1998 and in White Stone, Virginia in 2006. Our professional staff includes:

- ◆ Civil and Structural Engineers
- ◆ Environmental Engineers
- ◆ Wetland Delineators
- ◆ Surveyors
- ◆ Land Planners
- ◆ Construction Administrators and Inspectors
- ◆ Design and CADD Technicians
- ◆ Administrative Staff

Insurance

We maintain a \$1 million liability policy for professional errors and omissions. Insurance coverage and appropriate levels of Automobile and Liability Insurance Certifications can be provided upon request.
