

Firm Profile

Bury is extremely prepared to fulfill the water resource needs of projects in **Northumberland County**. Our staff is familiar with assessing the water resource engineering needs for local municipalities and independent communities. Recently, we worked with the Town of Claremont to resolve wastewater treatment issues caused by Hurricane Isabel and to meet DEQ requirements. Other recent water resource projects include the independent wastewater treatment plant and water treatment system at Hopyard Farms in King George County, design and construction of a substantial gravity sewer forcemain and pump station in Stafford County, sanitary sewer improvements for the Town of Dendron in Surry County, and design and construction of improvements to the Wintergreen Resort water treatment plant. Additionally, we developed the Water and Sewer Master Plan for the Town of White Stone. We have current annual term agreements with Nelson County Service Authority, Sussex Service Authority, King William County and Loudoun County Public Schools. Our staff includes several former Virginia Department of Health employees who are familiar with the Health Department funding staff and grant requirements as well as the current design and construction regulations. Our staff is familiar with the regulatory personnel who have jurisdiction over **Northumberland County** projects. As a full service firm, **Bury** is fully prepared to provide civil engineering, site planning, water resource engineering and survey services to complete projects on time and on budget.

History Founded in 1984 in Austin, Texas, Bury built its reputation on a high-performance, service-driven culture. Many long-standing relationships attest to our dedication of shaping services to meeting client needs and delivering on project goals.

Bury expanded to serve clients with additional offices in Dallas, Houston, San Antonio and Temple, Texas and Fairfax and Williamsburg, Virginia. Each expansion brought increased technical capabilities, expertise and resources.

Today, with over 225 employees and the capacity to do work in every state, we offer the resources, talent and experience to serve any sector in the industry.

Our Mission To set the standard in our field for client service and professional excellence as we grow to better serve clients and provide greater opportunities for employees.

Our Promise We put 100% into achieving our clients' success.
